This document contains data on innovation activity of enterprises in industry and services. Data are the results of the processing of the innovation survey Inov 1-92 in 2022 and are available by NACE Rev. 2 and size class of enterprises according to the number of persons employed. The publication comprises also regional views. The content of the survey concerned the reference period 2020-2022. The publication is divided into two parts, tabulation and text containing an analysis of selected indicators.

Methodology of the statistical survey on innovation for 2022 was worked out within the process of implementation of the revised Oslo Manual (4th edition of 2018) methodology and was harmonized with the joint survey of EU countries - Community Innovation Survey (CIS 2022).
