

Vision ESS 2020

Posledná aktualizácia:13.12.2021

The **ESS Vision 2020** is a common strategic response of the European Statistical System (Eurostat, EU Member States and the EFTA countries) to the challenges that the official statistics is facing. It was adopted by the ESS Committee in May 2014. common action is needed to ensure that the for European statistics meet the needs of the future

The implementation of the ESS Vision 2020 is implemented through a **portfolio of joint projects** supplemented by "**supporting frameworks**". The implementation is managed by the ESS structure created for this purpose.

Portfolio of joint projects

- E SBRs - European system of business registers
- SIMSTAT, REDESIGN - Building trade statistics in the European Single Market
- VALIDATION - Common EU data validation policy
- ADMIN - Administrative data sources
- ESDEN - The data highways of the ESS
- BIGD - Big Data for official statistics
- DIGICOM - Digital dissemination and communication

Supporting frameworks

- Quality
- Cooperation models
- ESS Enterprise Architecture
- Information Models and Standards

The quarterly newsletter- ESS Vision 2020 News, informs about the progress on the implementation of the ESS Vision 2020, as well as about the experts involved at the national and international level and other new topics.
