The most comprehensive statistical work on life in the capital of the Slovak Republic provides up-to-date and new data for the year 2023 across 21 thematic areas. The publication offers insights into the city's economic and social development, as well as the latest data on its population, education, healthcare, crime, business, environment, and research. Selected indicators are available in detailed structures at the level of 5 districts and 17 city boroughs. Current data is presented in the context of the past 4 years, with selected indicators spanning a 50 year period.

The publication is complemented by an updated [Information Dashboard for the City of Bratislava](#), which displays selected key indicators through interactive graphs. Both the publication and the dashboard now feature an [original interactive quiz](#). This quiz allows users to test their analytical skills and predict the future development of selected indicators related to life in Bratislava over time.
